Notice of Hubei Province New Coronavirus Infection Pneumonia Prevention and Control Headquarters

In order to coordinate the advancement of epidemic prevention and control and economic and social development, orderly restore the order of production and life, according to the "People's Republic of China Emergency Response Law", "People's Republic of China Infectious Disease Prevention Law" and major public health emergencies in Hubei Province | Relevant regulations such as the response mechanism, with the approval of the central government, are hereby announced as follows:

1. Starting from 0:00 on March 25, the areas outside Wuhan will be lifted from the control of the departure from Hubei, and the external traffic will be restored in an orderly manner. The personnel leaving Hubei will flow safely and orderly with the Hubei Health Code "Green Code".

2. Wuhan continues to implement strict control measures for the passage from Han to Hubei. Starting at 0:00 on March 25, on the premise of good health management and implementation of prevention and control measures, migrant workers who hold the Hubei health code "green code" after passing the nucleic acid test, take "point to point, one stop The "style" approach concentrates on precise transportation to ensure safe and orderly return to work. From 0:00 on April 8th, Wuhan lifted the control measures for the departure from Han to Hubei, and resumed the external traffic in an orderly manner. The personnel from Han left with the Hubei health code "green code" for safe and orderly flow.

3. Persons from other provinces who come to Elaihan can safely and orderly move across the province based on the health code of other provinces or the "green code" of the Hubei health code, without the need to provide a separate health certificate (except those who are indeed unable to apply for a health code) , Application approval form or acceptance certificate, vehicle pass, etc. Persons leaving the province should understand and abide by the relevant regulations on the prevention and control of the epidemic situation at the destination in advance.

4. Based on the assessment of the risk level of the epidemic situation, Wuhan City, on the premise of doing a good job in the prevention and control of the epidemic situation, promotes the grading, classification, time-sharing, and conditional resumption of production of enterprises.

5. Colleges, schools, vocational schools, technical colleges, and kindergartens in the province continue to postpone the start of school. The specific school start time will be determined after scientific evaluation based on the epidemic prevention and control situation.

6. All localities should further strengthen their territorial responsibilities, not relax and pay close attention to all prevention and control work, strictly prevent the risk of rebound of the epidemic situation caused by the increase of personnel flow and gathering, and properly deal with imported risks. It is necessary to make overall plans for the return of personnel stranded in Han, etc., to refine work arrangements and ensure safe and orderly flow. It is necessary to actively and orderly promote the resumption of production and production of enterprises and institutions, and strive to minimize the losses caused by the epidemic, and strive to bring the economic and

social development of the province into a normal track as soon as possible.
